

Advanced Environment Management System (EMS) Auditing Course

March 5 to 9 2007, Dhaka, Bangladesh

Inaugural Session of the EMS Audit Course on March 5, 2007

A capacity building training on Certified Lead Auditors Course on ISO-14001:2004 has been successfully completed during March 5 to 9 2007. This training was jointly organized by Waste Concern Consultants in partnership with the Swisscontact-KATALYST and the Bangladesh Plastic Goods Manufacturers & Exporters Association (BPGMEA) at the conference room of BPGMEA. `Advanced EMS Auditing Course' was conducted by trainers from DNV, a world renowned Norwegian company. This course is approved by Institute of Environmental Management & Assessment (IEMA) of UK. Nineteen professionals, senior managers and officers from the Department of Environment, Local Government Engineering Department (LGED), Bangladesh University of Engineering and Technology, World Health Organization (WHO), Waste Concern, Swisscontact-KATALYST and members from manufacturing industries of BPGMEA participated in the training.
