

WWR

WWR Bio Fertilizer
Bangladesh Ltd.

WWR Bio Fertilizer Bangladesh Ltd.: A “For Profit” joint venture company of Waste Concern and World Wide Recycling BV of the Netherlands. It is working as an investor and operator for organic waste recycling projects through composting. Its working principle is based on public-private partnership model and CDM.

WWR Bio Fertilizer is the largest compost manufacturer and distributor in the country using city organic waste having a waste processing capacity 47,450 Tons/Year. WWR Bio Fertilizer Bangladesh Ltd markets its Government registered compost directly through dealers & distributors. WWR Bio Fertilizer has its own quality control laboratory with testing facility for all parameters of the compost.
